

# DISASTER RELIEF

**\$30** provides a disaster relief box to individuals and families affected by the ongoing severe weather and flooding in our part of the state.  
**You Can Make A Difference.**

The Food Bank serves 360 Partner Agencies in 24 counties

As families struggle in the aftermath of this disaster, the Food Bank will work to provide emergency relief and material support to organizations who react as first responders in crisis areas.

Disaster relief boxes contain fresh produce along with other important items.

#### Current Needs:

- Grains (rice, pasta, bread)
- Shelf-stable items such as canned vegetables, fruit, peanut butter, protein, and packaged meals
- Cleaning & paper products (dish soap, toilet paper, paper towels, paper plates & cups)

“Homes are flooded, but many businesses are too, so paychecks will be missed in the coming weeks. We must all pull together to help our neighbors through these difficult days. They need us.”

- Eileen Bradshaw,  
Executive Director of the Food Bank

The recent tornadoes and flooding will require a long-term recovery effort. Thank you for your help.
